CENTRALIZE YOUR RESOURCE MANAGEMENT: A NEW APPROACH TO A TOUGH CHALLENGE.

The instructional demands on your district are growing. Unfortunately, your administrative budget isn’t.

At Follett Software, we’ve taken a centralized approach to this tough challenge with a powerful, browser-based software suite to help streamline the business of education.

Now, you can take control of your budget to reduce losses and manage key resources district-wide with the Destiny Resource Management Solution. Districts across the country are using this comprehensive, browser-based system to centrally manage library materials, textbooks, instructional media and other critical resources. Our latest Destiny module optimizes management of fixed and portable assets to reduce redundant purchasing, ensure resource availability, simplify reporting and enable accountability across the district.

All Destiny modules are centrally installed to eliminate the need for client software at each school, helping reduce costs, improve efficiencies and streamline budget forecasting.

The Power of Central Integration

Flexible configuration lets you use the Destiny modules independently or seamlessly integrated to help lower total cost of ownership. Every dollar saved in administrative costs is another dollar your district can devote to teaching students. Destiny helps save time and money by centrally managing key resources:

- Easy, powerful reporting with a district-wide view of resources.
- Enter data just once, saving staff hours and improving accuracy.
- Run all applications on the same server, reducing hardware and maintenance costs and eliminating the need for client software installed on each workstation.
- Install and maintain from one location.
- Easy to use for any authorized staff member, with access from anywhere, 24/7.
- Intuitive interface lets you move from one application to another in one click.

Districts Get Results with Destiny

Destiny Resource Management Solution simplifies the administrative process and effectively increases your ability to better manage your district’s spending. In fact, districts report significant cost efficiencies:

- Reducing demands and costs for technical support.
- Eliminating redundant purchases.
- Improving ability to reallocate and assign resources.
- Reducing loss of district resources.
- Improving accountability of resources at schools.
- Anticipating future budget needs.
- Enhancing reporting accuracy for more timely and effective decisions.
Streamlining the Business of Education

Destiny Resource Management Solution™

- Centrally manages library materials, textbooks, instructional media and fixed and portable assets.
- Districts using all Destiny solutions simultaneously benefit from consolidated reporting and seamless sharing of patron data across all modules.
- Provides robust, flexible reporting with improved accuracy for more timely and effective decisions.
- Helps districts redirect administrative dollars toward instruction.

Destiny Library Manager™

- Centralizes and streamlines library management across all schools.
- Provides circulation, cataloging, searching, reporting and management in one powerful, easy-to-use solution.
- Promotes student achievement and strengthens the library-curriculum connection through subscription services that expand information access for students and teachers.

Destiny Textbook Manager™

- Enables total, web-based tracking and management of a district’s third largest expenditure—textbooks.
- Improves accessibility and accountability, ensuring textbooks are available and in the hands of students.
- Robust reporting helps save districts time and money managing costly resources.

Destiny Media Manager™

- Makes it easy for teachers to find and schedule relevant multimedia materials for use in the classroom.
- Enables teachers to adapt curriculum to meet the varied learning styles of students.
- Provides browser-based multimedia resource management, tracking and usage reporting.

Destiny Asset Manager™

- Optimizes access, availability and use of all your district’s assets through browser-based tracking and management.
- Identifies asset accountability throughout the district.
- Improves accuracy and efficiency in creating government-mandated reports.
FOLLETT: STREAMLINING THE BUSINESS OF EDUCATION.

For more than two decades, Follett Software has led the way in district resource management. That’s why more than 38,000 customers in almost half the nation’s school districts have chosen Follett Software to streamline their administrative processes.

A Leader in District Instructional Resource Management

Since 1985, Follett Software has developed automation management solutions that meet the demands of schools. Over the decades, we’ve adapted our focus to the changing needs of K-12 education, which is why more and more districts are recognizing Follett as the vendor of choice to help manage key resources and assets. Independent industry publications have rated Destiny the fastest-growing centralized resource management solution for K-12, far outpacing the competition.

Building Our Nation’s Districts

Follett Software Company is a division of Follett Corporation, a respected name in education which has helped to build our nation’s school libraries since 1874. We’ve provided library automation and books for over 100,000 schools and universities in the United States and in 165 other countries. We understand what school districts need and want.

A Pioneer in the Schools Interoperability Framework

Follett was the first to develop library software that meets the standards of the Schools Interoperability Framework (SIF), a historic initiative to make sure the software systems that manage education can share information with each other. We’re honored that Microsoft® chose Follett to help create this important “gold standard” for school software.

A Tradition of Trust

Experience, technological leadership and trust. It’s easy to see why we stand behind our philosophy, “Thinking Forward.”
